IMPORTANT MESSAGE REGARDING YOUR DATA CENTER SERVICES

Dear Valued OCiX Customer:

On May 5, 2011, OCiX, Inc. announced that a Definitive Agreement had been signed allowing U.S. TelePacific Corp. doing business as TelePacific Communications (TelePacific), to acquire OCiX. Under the agreement, TelePacific will take over control of the OCiX data center in Santa Ana, California. Once TelePacific acquires OCiX, your services will continue to be provided by OCiX under your current contract. Throughout the closing process, there will be no impact to customer service, data security, or support.

About TelePacific

Doing business since 1998, TelePacific is a facility-based carrier headquartered in Los Angeles and a leading competitive carrier in California and Nevada. TelePacific provides services through a combination of TelePacific-owned switches and network infrastructure. Offering mobile, local and long distance voice, dedicated Internet access, private networking and data transport services as well as bundled voice and Internet solutions, TelePacific manages more than 38,000 customer accounts with more than 1.1 million access lines.

TelePacific has an existing SAS 70 certified data center in Sacramento, California and is pleased to be able to expand its available infrastructure in order to help customers grow their businesses strategically. As you familiarize yourself with TelePacific's service offerings you will likely find that the business continuity and colocation solutions are in alignment with your business needs. In addition to their state-of-the-art data center facility in Northern California, TelePacific offers comprehensive business telecom solutions without the need for large capital investments.

OCiX and TelePacific are focused on a seamless transition to ensure that OCiX customers see a continuation of the quality and service they have come to expect. As part of TelePacific's commitment to exceptional client service, they consistently measure the performance of the services they deliver and with a company culture based on customer satisfaction, rest assured, customer service is TelePacific's first priority. For more information, please visit TelePacific's website at www.telepacific.com.

If you have any immediate questions, please contact OCiX's customer support at 877-600-6249, Monday through Friday 8:00 a.m. to 5:00 p.m.

We appreciate and value your business.

Please see the attached "Responses to your Frequently Asked Questions" for additional information regarding your service and the transition process.

Sincerely,

Brandon Chaney
President

TelePacific Communications

Responses to your Frequently Asked Questions

On May 5, 2011 Orange County Internet Exchange (OCiX) and U.S. TelePacific Corp., which does business as TelePacific Communications (TelePacific), announced an agreement which will allow TelePacific to acquire OCiX.

TelePacific will assume ownership responsibility for OCiX, including the OCiX data center and customer base, on June 1, 2011.

1. About TelePacific Communications

TelePacific Communications is a leading competitive telecommunications carrier that serves customers throughout California and Nevada. TelePacific is headquartered in Los Angeles and has customer care centers in Los Angeles and Stockton in California and Las Vegas in Nevada. In business since 1998, TelePacific provides services through a combination of TelePacific-owned switches and network infrastructure, including its own and leased robust fiber-optic network assets. Offering local and long distance voice, dedicated Internet access, private networking and data transport services as well as enhanced business services. TelePacific currently manages more than 38,000 SMB customer accounts with approximately 1.1 million access line equivalents in service. To find out more about TelePacific, visit www.telepacific.com.

2. What are the benefits for OCiX customers?

- TelePacific has many enhanced business services to improve employee productivity from mobile connectivity, redundancy solutions for both voice and data and high bandwidth Ethernet access services to customer portals that allow you to pay your bill online, monitor your network, and submit and track trouble tickets, as examples. Upon finalization of the acquisition, TelePacific will look to extend those services to you so your business can benefit, too.
- In addition to the existing OCiX data center in Santa Ana, TelePacific has colocation and data centers throughout the state, including an SAS 70 certified data center in Sacramento, providing your company more options for its data and colocation needs.
- OCiX customers will be able to take advantage of TelePacific's vendor-agnostic equipment leasing program, which provides customers access to the equipment they need without the initial capital expenditure outlay, and consolidates leasing payments and telecommunications service expenses into one monthly bill.
- With redundant call centers in Stockton, Los Angeles and Las Vegas, TelePacific provides at least the same level of service that you have come to expect from OCiX. Specializing in the small-to-medium enterprise (SMB) market, TelePacific focuses on providing a level of service to SMB accounts that is typically reserved for the largest corporate accounts.
- Like OCiX, TelePacific is local. It's a California-based company with employees and executives in Southern California, the Bay Area, Central California and Nevada, which ensures that you have account support available where you need it, when you need it.

3. How will you communicate with me?

You will receive written notifications in the mail, as well as updates in your bill. Watch your mail and check your monthly statements for this information. Updates will also be posted on OCiX's website until the acquisition is finalized and on TelePacific's website after the acquisition.

4. Who do I call for billing questions, customer service or repair?

Both before and after this transfer of service responsibility, continue to contact the following:

- Customer Support: 877-600-6249;
- Billing Email: billing@ocinternetx.com;
- Technical Support Email: support@ocinternet.com;

5. Can I make changes to my service?

Yes, continue to make your change requests as you have always done.

6. Who do I call for new service?

Both before and after TelePacific acquires OCiX, contact your existing Account Executive, Account Manager and Authorized Agent or email sales@ocinternetx.com.

7. Will this transaction impact service, response times or network quality?

No, you will experience at least the same level of quality, reliability, and response time you have come to expect from OCiX.

8. Will my bill change?

Prior to transaction close, you will continue to be invoiced from OCiX. After the transaction closes, you will begin receiving invoices for service under your OCiX contract directly from TelePacific.

9. I just ordered new or additional services from OCiX that have not been installed or are in the process of being installed. What will happen with my order?

Your services will still be installed by OCiX. There will not be any delay in the installation process as a result of this announcement.

10. May I choose to stay with OCiX or choose another data center service provider?

Your service will remain with OCiX unless you choose another data center provider. While you always have the right to select another data center provider, please be aware that any applicable contractual obligations such as any applicable early termination fees will apply if you cancel service prior to the expiration of an existing term agreement.

11. Will my rates or services be changing?

The change in ownership will not affect the rates, terms and conditions for your service. Any future changes will be made only in accordance with applicable contract requirements.

12. How will complaints be handled?

OCiX will continue to manage the network, respond to complaints and bill for services.
