

## **1.0 - DEFINITIONS**

For the purpose of this tariff, the following definitions will apply:

Account Codes: Permits Centrex Stations and attendants to dial an account code number of up to eight digits. For use when placing calls over facilities arranged for Automatic Message Accounting (AMA) recording. The account or project number must be input prior to dialing the called number.

Advance Payment: Part or all of a payment required before the start of service.

Alternative Operator Services: Alternative Operator Services are those services provided by the carrier in which the customer and the end user are totally separate entities. The carrier contracts with the customer to provide the alternative operator services; however, the carrier does not directly contract with the end user to provide the services even though it is the end user who actually pays for the processing of the operator assisted calls.

Automatic Number Identification ("ANI"): Allows the automatic transmission of a caller's billing account telephone number to a local exchange company, interexchange carrier or a third party subscriber. The primary purpose of ANI is to allow for billing of toll calls.

Billed to Calling Card: Refers to calls that are dialed by the Customer in accordance with standard dialing instructions and billed to a non-proprietary calling card issued by another carrier.

### **1.0 - DEFINITIONS (cont'd)**

Direct Inward Dial (or "DID"): A service attribute that routes incoming calls directly to stations, bypassing a central answering point.

Direct Outward Dial (or "DOD"): A service attribute that allows individual station users to access and dial outside numbers directly.

Dual Tone Multi-Frequency (or "DTMF"): The pulse type employed by tone dial station sets.

Duplex Service: Service which provides for simultaneous transmission in both directions.

End Office: With respect to each NPA-NXX code prefix assigned to the Company, the location of the Company's "end office" for purposes of this tariff shall be the point of interconnection associated with that NPA-NXX code in the Local Exchange Routing Guide ("LERG"), issued by Bellcore.

Exchange Telephone Company or Telephone Company: Denotes any individual, partnership, association, joint-stock company, trust, or corporation authorized by the appropriate regulatory bodies to engaged in providing public switched communication service throughout an exchange area, and between exchange areas within the LATA.

FCC: Federal Communications Commission, or "Commission."

Fiber Optic Cable: A thin filament of glass with a protective outer coating through which a light beam carrying communications signals may be transmitted by means of multiple internal reflections to a receiver, which translates the message.

Hearing Impaired: Those persons with communication impairments, including those hearing impaired, deaf, deaf/blind, and speech impaired persons who have an impairment that prevents them from communicating over the telephone without the aid of a telecommunications device for the deaf.

Hunting: Routes a call to an idle station line in a prearranged group when the called station line is busy.

ICG: ICG Telecom Group, Inc., the issuer of this tariff.

## **1.0 - DEFINITIONS (cont'd)**

In-Only: A service attribute that restricts outward dial access and routes incoming calls to a designated answer point.

IXC or Interexchange Carrier: A long distance telecommunications services provider.

Kbps: Kilobits per second, denotes thousands of bits per second.

LATA: A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4.

Local Interconnection Trunking Service: A local circuit administration point, other than a cross-connect or an information outlet, that provides capability for routing and re-routing circuits.

Mbps: Megabits, denotes millions of bits per second.

Minimum Point of Presence ("MPOP"): The main telephone closet in the Customer's building.

Monthly Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Multi-Frequency or ("MF"): An inter-machine pulse-type used for signaling between telephone switches, or between telephone switches and PBX/key systems.

Non-Proprietary Calling Card: Refers to a calling card or travel card which can be billed by any carrier and used on any network, such as an BellSouth card issued in conjunction with local services; as opposed to a card issued by an IXC which can only be used on that carrier's network and billed by that carrier.

Non-Recurring Charge ("NRC"): The initial charge, usually assessed on a one-time basis, to initiate and establish service.

## **1.0 - DEFINITIONS (cont'd)**

("NPA"): Numbering plan area or area code.

Off-Net: A means for carrying traffic to or from the Customer's premises, where the Company leases Other Telephone Company's facilities to deliver traffic to Customer location.

On-Net: A means for carrying traffic to or from the Customer's premises, where the Company connects to the MPOP in a Customer building or on a Customer's premises using only Company-owned fiber. On-Net traffic is delivered to Customer exclusively over facilities of the Company.

On-Switch: An on-switch Customer refers to a Customer that is connected to a Company owned switch for the provision of the Company's local dial tone service. An on-switch Customer may be connected to a Company switch through either a direct connection using Company-owned fiber facilities, or through leased facilities.

Operator Dialed Charge: The end user places the call without dialing the destination number, although the capability to do it himself exists. The end user will dial "0" for local calls and "00" for long distance calls and then requests the operator to dial the called station.

Operator Services: Operator Handled Calling Services are provided to Customers and Users of Company-provided Interexchange Services.

Other Telephone Company: An Exchange Telephone Company, other than the Company.

PBX: Private Branch Exchange

Person-to-Person: Calls completed with the assistance of a Company operator to a particular person, station, department, or PBX extension specified by the calling party. Charges may be billed to the Customer's commercial credit card and/or LEC calling card, called station, or a designated third-party station.

Point of Presence ("POP"): Point of Presence

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment which continue for the agreed upon duration of the service.

## **1.0 - DEFINITIONS (cont'd)**

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and Customer may mutually agree on a substitute Service Commencement Date.

Service Order: The written request for Network Services executed by the Customer and the Company in the format devised by the Company. The signing of a Service Order by the Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date.

Shared: A facility or equipment system or subsystem that can be used simultaneously by several Customers.

Shared Inbound Calls: Refers to calls that are terminated via the Customer's Company-provided local exchange line.

Shared Outbound Calls: Refers to calls in Feature Group (FGD) exchanges whereby the Customer's local telephone lines are presubscribed by the Company to the Company's outbound service such that "1 + 10-digit number" calls are automatically routed to the Company's or an IXC's network. Calls to stations within the Customer's LATA may be placed by dialing "10XXX" or "101XXXX" with 1 + 10-digit number."

Station-to-Station: Refers to calls other than person-to-person calls billed to either the end user's commercial credit card and/or non-proprietary calling card. Calls may be dialed with or without the assistance of a Company operator. Collect calls to coin telephones and transfers of charges to third telephones which are coin telephones will not be accepted.

Tandem: A class 4 switch facility to which NPA and NXX codes are subtended.

Three-Way Calling: Allows a station line user to add a third party to an existing conversation.

**1.0 - DEFINITIONS** (cont'd)

Traditional Operator Services: Traditional Operator Services are those services provided by the carrier in which the end user has a customer relationship with the carrier, contracts with the customer/end user to provide the services, and the customer/end user pays for the actual processing of the operator assisted calls.

Two Way: A service attribute that includes outward dial capabilities for outbound calls and can also be used to carry inbound calls to a central point for further processing.

Usage Based Charges: Charges for minutes or messages traversing over local exchange facilities.

User or End User: A Customer, Joint User, or any other person authorized by a Customer to use service provided under this tariff.
