

Welcome to O1 Communications

This document is provided as an introduction to using O1's POTS lines value-added features.

FEATURE	INSTRUCTIONS
<p>Call Waiting Prevents and screens calls up to 10 numbers at one time.</p>	<p>This feature is always on, press *70 to deactivate this feature.</p>
<p>Call Return Allows you to call back the last incoming call without having to redial the number.</p>	<p>To activate this feature, press *69, to deactivate, press *89.</p>
<p>Repeat Dialing Checks up to 10 busy lines and alerts or connects you when the lines become open.</p>	<p>To activate this feature, press *66 and to deactivate, press *86.</p>
<p>Anonymous Call Rejection Works with Caller ID to automatically stop incoming calls from anonymous callers who have blocked their numbers.</p>	<p>To activate this feature, press *77 and to deactivate, press *89.</p>
<p>Call Trace Trace an offending call immediately after it's made.</p>	<p>To activate this feature, press *57.</p>
<p>Blocking of Outbound Caller's ID</p>	<p>To activate this feature, press *67 and *82 to unblock.</p>
<p>Speed Calling 8 Assigns up to eight of your most frequently called numbers a simple, easy-to-remember one-digit number.</p>	<p>To activate this feature, press 74#.</p>
<p>Call Screening Screens and blocks calls from up to 10 numbers at one time.</p>	<p>To block calls from numbers that you choose, press *60 and follow the prompts and to deactivate, press *60.</p>
<p>Priority Ringing Allows you to select up to 10 important numbers that you can mark with a special ring. This feature works with Call Waiting so you can recognize important calls when you are on the line.</p>	<p>To activate this feature, press *61 and to deactivate, press *61 or *81.</p>
<p>Basic Call Forwarding Forwards call from up to 10 selected numbers to a number that you choose.</p>	<p>To activate this feature, press 72# and to deactivate, press 72# or 83#.</p>
<p>Selective Call Forwarding Automatically forwards call from up to 10 selected numbers that you choose.</p>	<p>To activate this feature, press *63 and to deactivate, press *83, Lift receiver, wait for dial tone, press *63 to activate, dial 3 and listen for instructions.</p>
<p>Remote Access Call Forwarding Control Call Forward from any touchtone phone with Remote Access to Call Forwarding.</p>	<p>To activate this feature, press 72#; when you hear the voice prompts, dial the number where calls should be sent, to deactivate, press 73#.</p>
<p>Call Forward Busy Automatically forwards calls to another number in your service area when your line is busy. Extended service forwards the call to you anywhere in the world.</p>	<p>This feature is programmed by O1.</p>
<p>Call Forwarding Delayed Delayed Call Forwarding eliminates the risk of forgetting to forward your calls; it is automatic. Choose the number of rings allowed before the call is forwarded, and the number where you would like your calls to go.</p>	<p>This feature is programmed by O1.</p>
