TelePacific's Web Hosting Control Panel is designed to enhance your ability to manage your website quickly and efficiently—at your convenience.

The Control Panel allows web administrators to perform many of the most common website management activities without having to call TelePacific Support. Having these management functions available through the Control Panel will save valuable time and provide you with greater control of your website.

The TelePacific Web Hosting control Panel is accessed at the following URL: <http://webhosting.telepacific.net>

CONTROL PANEL

After you log into your account you will see a list of domains that have been setup for web hosting under your account:

Domain: lindom1.org

[Control Panel](#)

Website: www.lindom1.org

Host headers: lindom1.org marketing.lindom1.org orders.lindom1.org sales.lindom1.org

FTP accounts: 1

FrontPage Server Extensions: NOT INSTALLED

Databases: 0

Pending Tasks: 0

Domain: windom1.net

[Control Panel](#)

Website: www.windom1.net

Host headers: windom1.net sales.windom1.net

FTP accounts: 1

FrontPage Server Extensions: NOT SUPPORTED

Databases: 0

Pending Tasks: 0

Please click the “Control Panel” icon to manage each domain:

Domain: lindom1.org

[Control Panel](#)

Website: www.lindom1.org

Host headers: lindom1.org marketing.lindom1.org orders.lindom1.org p1.lindom1.org sales.lindom1.org

FTP accounts: 1

FrontPage Server Extensions: INSTALLED

Databases: 0

Pending Tasks: 0

CONTROL PANEL

You will be redirected to the options that can be managed:

Database Management	 Create Database	 Manage Database	
FrontPage Server Extensions	 Re-Install FP Server Ext.	 Manage FP Server Ext.	
FTP Account Management	 Manage FTP Account		
Website Hostheaders	 Manage Hostheaders	 Protect Directories	
Website Traffic Statistics	 View Website Statistics	 Website Information	 URL ReDirect

DATABASE MANAGEMENT

Please click the **Create Database** icon:

The screenshot shows a grid of management icons. The 'Create Database' icon, which depicts a database cylinder with a green plus sign, is enclosed in a red dashed border. Other icons include 'Manage Database', 'Re-Install FP Server Ext.', 'Manage FP Server Ext.', 'Manage FTP Account', 'Manage Hostheaders', 'Protect Directories', 'View Website Statistics', 'Website Information', and 'URL ReDirect'.

You will have a choice between **Microsoft Access DSN (.mdb)** and **MySql**.

Description

DATABASE MANAGEMENT

Database requirements:

- Database type—**Microsoft Access DSN (.mdb)**
- Database name—not required
- Database Username—required
- Database Password—not required
- Description—not required but should be added

- Database type—**MySql**
- Database name—required
- Database Username—required
- Database Password—required
- Description—not required but should be added

Once the information is entered into the required fields, please click “**Create Database**”:

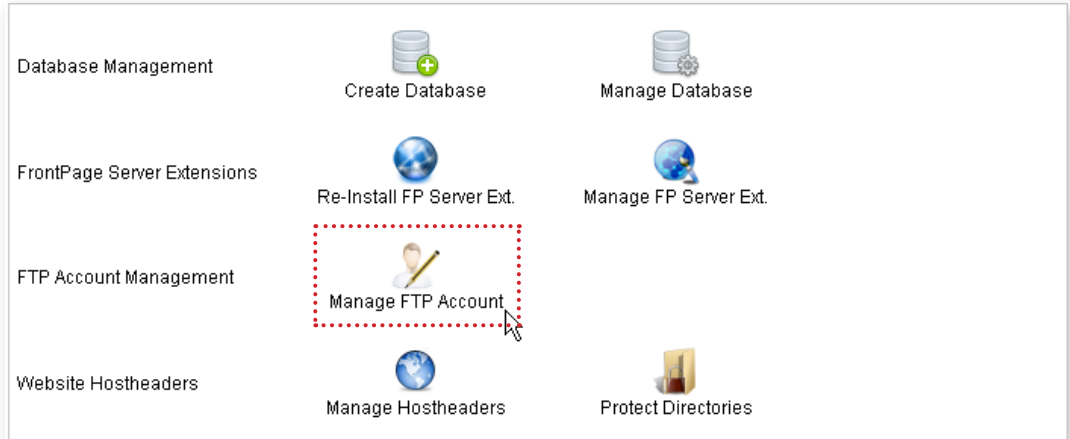

- Delete a database by clicking the 
- Manage Existing Database
 - Click **Manage** to log into your MySql Database using PHPmyAdmin
- **Show Password** is just that

Del	Database Name	Database Username	Actions	Database Type
	db1		Manage Show Password	ACCESSDB

FTP MANAGEMENT

This functionality allows you the ability to use FTP to upload/download website changes.

To manage an existing FTP Account, please click on the **Manage FTP Account** icon:

From this screen, you are able to change the password and disable the ftp account.

FTP user	Quota	Upload Speed	Download Speed
max123	1000 MB	100 KB/s	100 KB/s

FTP user configuration - max123

FTP Account Status Enabled Disabled

Password

Quota 1000 MB

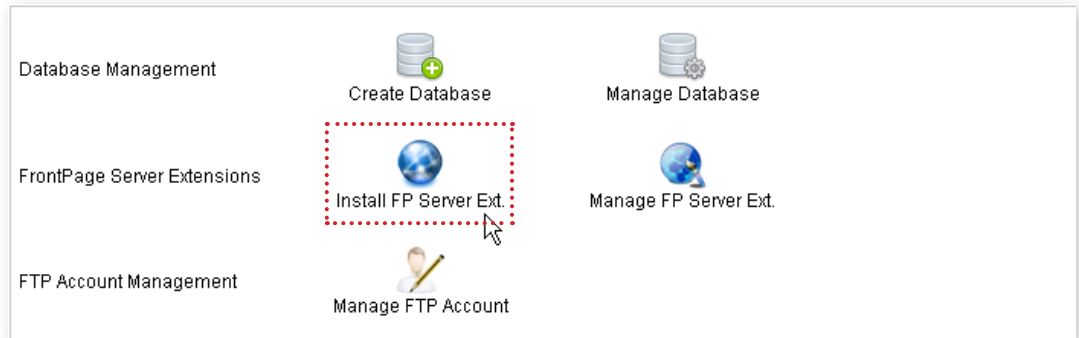

Upload speed 100 KB/s

Download Speed 100 KB/s

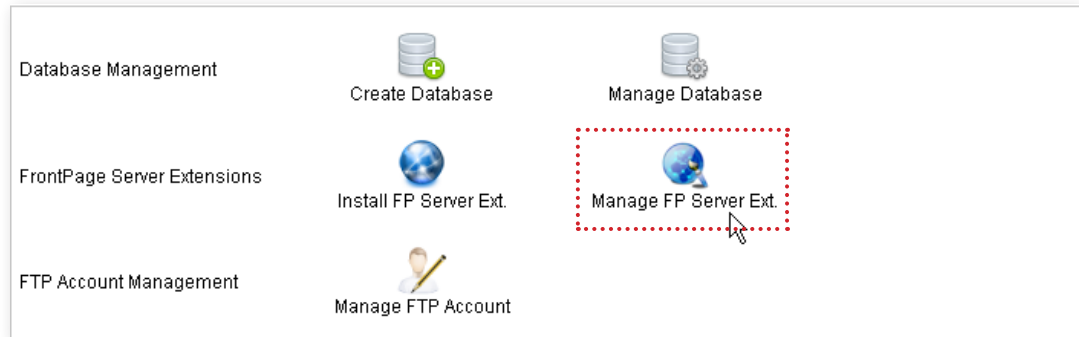

FRONTPAGE EXTENSIONS

There are two functions for using FrontPage to manage your website.

1) If you need FrontPage Server Extensions, click on the **Install FP Server Ext** icon:

2) To manage an existing FrontPage Account click the **Manage FP Server Ext.** icon:

[Verify FPSE](#)

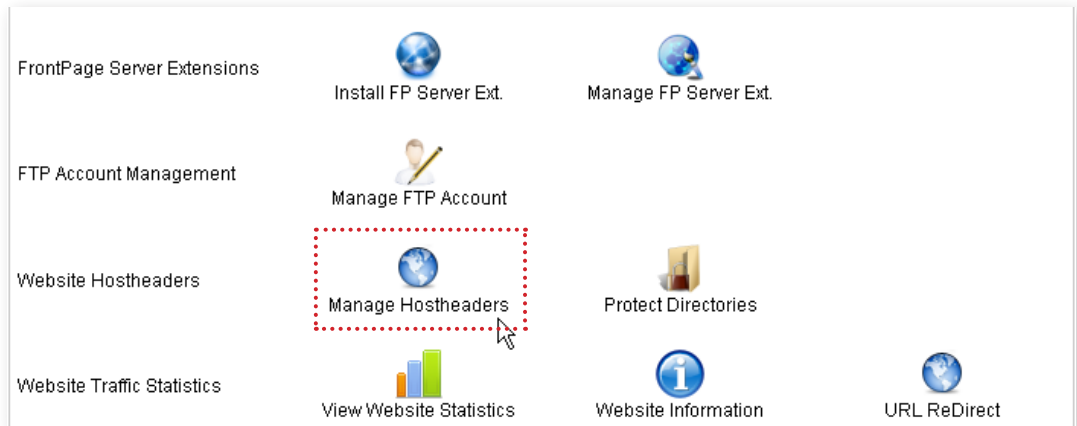

[Remove FPSE](#)

[Re-install FPSE](#)

WEBSITE HOST HEADERS

What is a host header? The website host header is an Internet host and port number that identifies a network resource. Using a host header gives you the ability to allow other website traffic to your domain. "WWW" is automatically added and cannot be removed.

In the example below, a DNS A record for sales.windom1.net must also be added to allow internet traffic to this website.

www.windom1.net host headers

```
✘ windom1.net
✘ sales.windom1.net
```

When a host header is added, it will display "pending update" in red. Once completed it will disappear.

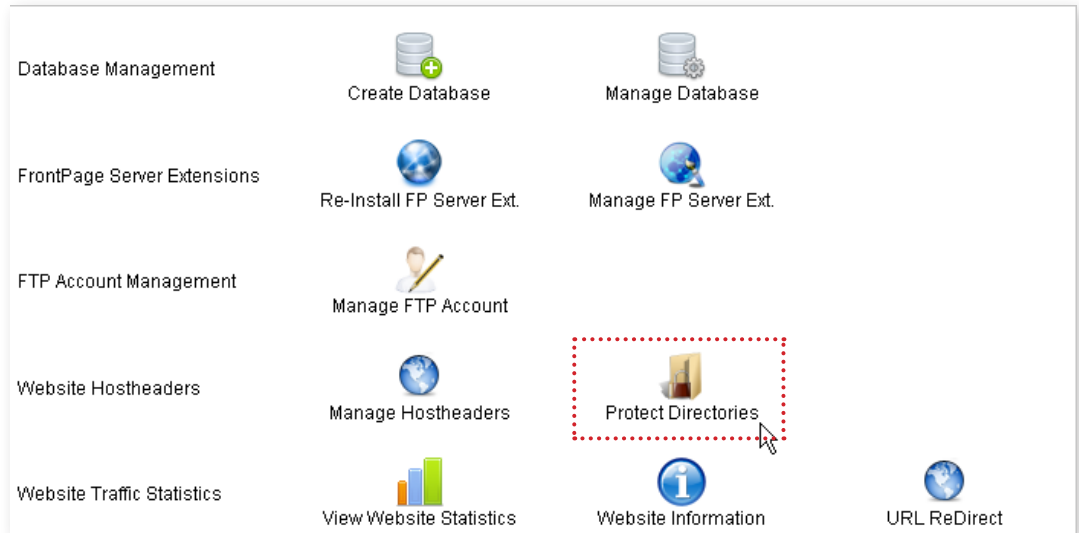

www.windom1.net host headers

```
windom1.net
sales.windom1.net
-- pending update --
```

To remove a particular host header, click the ✘

PASSWORD PROTECT DIRECTORIES

Click the **Protect Directories** icon to add password protection.

Choose which directory or the entire website that you would like to have a username and password dialog box pop-up when users browse to it.

www.windom1.net protects

www.windom1.net (main website) Username Password

(main website)
/subDir1
/subDir2

[<< Control Panel](#)

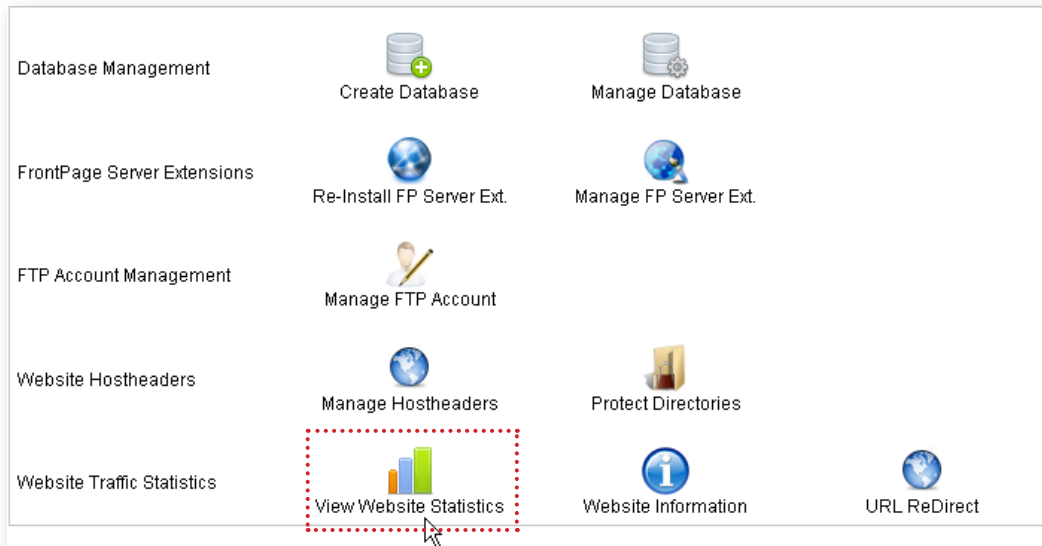

Choose a username and password and click **Save Protect**.

WEBSITE STATISTICS

In addition to features enabling you to manage your website, the new Control Panel provides valuable statistics for your domain.

For the domain you are managing, please click the [View Website Statistics](#) icon.

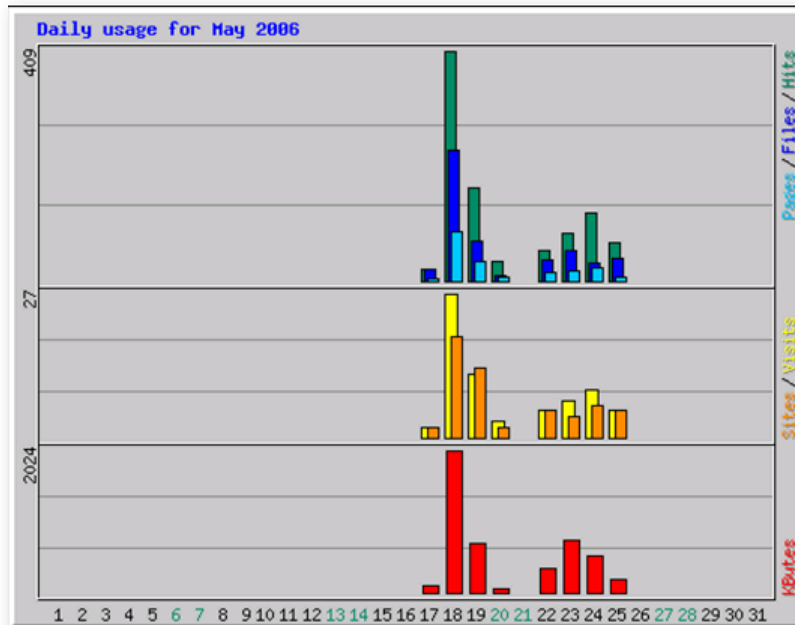

This screen will give you updated website statistics within the last 24 hours.
